[recipient name was inserted here],

The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service.

Millions of Americans like me could have their phone service threatened if the local phone companies aren't required to allow competitors access to the market. I'm also concerned about the Commission's move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. As a constituent, I urge you to support competition and open access for local phone service.

I believe that too many regulations protect the existing companies, rather than allowing competition in a free marketplace. Many communications services are still overpriced and additional competition should drive down prices.

Sincerely,

Hank Hoffman

The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service.

I am particularly concerned by the deregulation of the industry while promoting monopolies through regulations and industry purchased laws. Clearly the Republican agenda has removed balance and any sense of fairness at the FCC.

Millions of Americans like me could have their phone service threatened if the local phone companies arent required to allow competitors access to the market. Im also concerned about the Commissions move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. As a constituent, I urge you to support competition and open access for local phone service.

Regards,

James Vespi

Subject: UNE-P

Dear Mr. Powell,

I am concerned about the FCC taking action that will restrict consumer choice by deregulating our local phone service. Do not let the former monopolies cut off competitors access to lease facilities and threaten service to consumers throughout America. Protect consumer choice, support retentions of the UNE-P.

Sincerely,
Constance Chiodini

Subject: Tri Review

The abuses of the ILECs are **so** well documented (their foot dragging, obstructionism, monopolistic abuses, etc. with respect to the Telecom Act), that there can only be one reason for any of you to go along with their wish list and that is that they are buying you off with promises of campaign contributions or worse.

The CLEC industry is the only reason that people and businesses today aren't still forced to **use** ISDN lines at inflated prices. Let the ILECs maintain the last mile and open up access to those lines to all comers and watch how quickly investment and speedy internet access ramps up. **You** guys are killing the industry with the uncertainty that results from the way you play with the rules or threaten to play with the rules.

Don't be misled by the promises of the ILECs to cover the nation in fiber if only unfettered. The best predictor of how a person or corporation will behave in the future is how they have behaved in the past. The miserable record of the ILECs is there for all of you to **see**. Don't condemn the nation to ten more years like the last ten.

The **US** is being left behind in the broadband race, but the ILECs are not the winning horse in this race. Open up the nation's broadband pipes to all comers in a fair market. And for **Gods** sake stay the course **so** the rules are clear, understandable, consistent, durable and ENFORCED.

Subject: line sharing

eliminating line sharing will lead to less choice and competition, and higher prices for consumers and small business for broadband services.

It also would slow the penetration of broadband services across the country delaying key benefits that can help the economy.

Subject: UNE-Platform

February 5th, 2003

Dear Chairman Michael Powell:

I ask your support for the continued availability of the "UNE-Platform."

My company, **Access One**, offers local telephone service in the SBC territories. The company has achieved increasing success largely because it utilizes the combination of "unbundled network elements" - the UNE-Platform - to serve customers. It is absolutely critical that we have continued access to the UNE-Platform to remain competitive.

Unfortunately, the Regional Bell Operating Companies have launched a full-scale attack on the UNE-Platform, realizing it is a major threat to their continued market dominance. Their strategy is to impose certain restrictions on individual network elements that would destroy the competitive value of the UNE-Platform. If the RBOCs succeed, it will all but end any chance for consumers to enjoy the benefits of meaningful competition in local phone service.

We request any effort at the Federal Communications Commission or at state agencies to maintain the UNE-Platform. The UNE-Platform should be firmly and permanently established as a viable service option for competitive telecommunications.

Thank you very much for your time and attention to this important matter.

Sincerely,

Julie Nichols

Subject: UNE-Platform

February 5th, 2003

Dear Commissioner Jonathan Adelstein:

I ask your support for the continued availability of the "UNE-Platform."

My company, Access One, offers local telephone service in select SBC territories. The company has achieved increasing success largely because it utilizes the combination of "unbundled network elements" - the UNE-Platform - to serve customers. It is absolutely critical that we have continued access to the UNE-Platform to remain competitive.

Unfortunately, the Regional Bell Operating Companies have launched a full-scale attack on the UNE-Platform, realizing it is a major threat to their continued market dominance. Their strategy is to impose certain restrictions on individual network elements that would destroy the competitive value of the UNE-Platform. If the RBOCs succeed, it will all but end any chance for consumers to enjoy the benefits of meaningful competition in local phone service.

Please oppose any effort at the Federal Communications Commission or at state agencies to limit the availability of the UNE-Platform. The UNE-Platform should be firmly and permanently established as a viable service option for competitive telecom carriers.

Thank you very much for your time and attention to this important matter.

Sincerely,

Julie Nichols
